Dear Parent of a Hub Teen:

The Hub Teen Center has been awarded a grant with support from the VT Dept. of Health to present Personal Responsibility Education Program (PREP) curriculum to youth age 12-19 in the 5-Town area. The course lasts for two days and runs 10am-3pm, April 20th and 21st. Teens that complete this free program receive a stipend of \$100.

We're grateful for the opportunity to offer programming that, although the subjects may be sensitive, can also be empowering and positive to our teens. While the subject matter of the course is straightforward, it can also be sensitive to some families who may prefer for their teen to experience sex education in a different manner or at a different time. For this reason, we ask that parents of all teen participants acknowledge their support of the PREP program by signing and returning this permission form. If you are interested in more information about the curricula presented in PREP, please visit <<http://www.healthvermont.gov/children-youth-families/adolescent-health/adolescent-sexual-health>>

Thank you for your participation; we're grateful for your support of our intention to manage this program in accordance with your wishes and in the best interest of all teens involved.

Sincerely,

The Hub Teen Center & Skatepark Staff

I, (print parent's name) _____, support the involvement of my teen, (print teen's name) _____, in the Personal Responsibility Education Program (PREP) curriculum presented by the staff of the Hub.
